Customer Reviews

I hope that not too many young women were duped into thinking that they would get some valuable advice from this trivial work. There is nothing in this pamphlet that you don't already know. Please don't buy this "book" thinking the author has some magical solution to a costly wedding. We all know silk flowers are cheaper than real, we also know that by having family members cook your wedding dinner you can save tons of money, but the family members might not be so anxious to put money in your pocket, especially if you have a pay bar! And how many of you brides to be know someone who owns a barn and would be willing to clean and decorate it for free? There are many ways to cut costs for your special dream wedding, but this is not where to find them.

This book is packed with many great tips and suggestions so this can be a memorable day. I especially liked the extra information about holding a wedding outdoors. The suggestion to let your guests know ahead of time so they can be sure to bring their proper medications just in case anything happens or if bees are attracted to the flower arrangements and your guest might be allergic, was so valuable. All of the extra planning details to save the day and make it a wonderful experience were carefully covered.

This is something that I recommend from my heart. I am actually getting married soon and this guide is incredible. It has so many useful ideas and advices on how to save money and much more useful things. I'm sure that I'll have an affordable and wonderful wedding day.

This book is a great place to start if you're planning a wedding on a budget. Its 18 pages are surprisingly comprehensive in touching on nearly every aspect of a wedding. There are a whole world of things to consider when planning such a meaningful event and this book is full of tips to get you thinking about truly making your big day your own and not Visa or Mastercard's!

I have a friend who is getting married this year and is on a budget. I was aware of some of the ideas in the book, but there were several money saving tips that I have never thought of. I am definitely sharing what I've learned with my friend.
